Claims 33-39 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on December 8, 2003.

Newly submitted claims 70-79 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The newly presented claims 70-79 are directed to pharmaceutical formulations and belong to the same invention as claims 33-39 which have been withdrawn from consideration as being directed to the nonelected invention, wherein the election was made without traverse.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 70-79 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claims 56-59, 61, 63-65 and 67-69 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 15 of copending Application No. 10/319,356 for the reasons set forth in the Office Action of November 18, 2005.

Applicant's arguments filed May 11, 2006 have been fully considered but they are not persuasive.

Applicant contends that claim 15 of the copending application has been cancelled and that the claims in the copending application are directed to the treatment of inflammation conditions. This argument has not been found persuasive since no such amendment has been found in the copending application.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
